Multi-Fuel

Residential

For the ultimate in fuel burning flexibility, look to the AHS Multi-fuel boiler. Engineered to burn a variety of fuels with high efficiency, our multi-fuel boiler will provide economical heat and hot water for your specific application.

The AHS Multi-Fuel boiler is available in configurations that allow you to burn bituminous (soft) coal and anthracite (hard) coal with liquid or gas fuel backup. The secret to burning two different fuels in the same firebox is our all new grate base design (see below). Liquid fuel backup enabled models include a separate firing chamber where fuel oil, natural gas, or propane is fired.

Our all-new grate base design features time proven perforated cast iron grates to allow more airflow into the combustion chamber. The grates are linked together to provide even and precise movement for equal ash separation along the entire coal bed ensuring you the highest quality ash. The new base design is furnished with a larger ash pan throughout all the models with a top handle making it easier to lift. The new door design is larger, it will include a gasket for a tight seal and a draft control knob for a more controllable combustion.

Standard Equipment

- **LARGE LOADING DOOR**
Full gasket for maximum efficiency
- **DUAL DRAFT SYSTEM**
- **AUTOMATIC DRAFT CONTROL.**
- **FIREBRICK LINED FIREBOX**
- **HYDRO TESTED TO 60 LBS. PSI**
- **CONSTRUCTED OF 1/4" STEEL PLATE THROUGHOUT**
- **HONEYWELL CIRCULATOR CONTROL AQUASTAT**
- **TEMPERATURE/PRESSURE GAUGE**
- **ASME TESTED PRESSURE RELIEF VALVE**
- **LOAD DOOR SMOKE FLAP**
- **COAL FORCED DRAFT KIT**
- **WATER COOLED BAFFLES**
Increase heat exchange surface for burning coal.
- **LARGE ASH PAN**
- **SEALED ASH DOOR**

C40

CO55

CO70

Multi-Fuel Boiler Nomenclature:

The following letters are used in designating boiler fuel configurations and have the following meanings. Note that the letters may be used in combination to designate the options included on a particular boiler configuration.

C - Coal burning • **O** - Oil/Liquid fuel burning

Models designated with a "C" for coal burning are provided in standard configuration for hard or soft coal. Models designated with an "O" for oil/liquid fuel burning are capable of burning a variety of liquid fuels. Typical fuels are fuel oil, natural gas, and propane.

AHS Multi-Fuel boilers are currently manufactured in four standard sizes. All units are traditional, hand-fired, updraft boilers. For automatic feeding boilers, please explore our Wood Gun wood gasification product line or our Coal Gun automatic coal stoker product line.

Multi-Fuel Boiler Specifications

With oil backup	CO40	CO55	CO70	CO100
Coal	150,000	225,000	265,000	400,000
Oil (max)	225,000	225,000	250,000	400,000
Heating Surface	24 sq ft	32 sq ft	39 sq ft	56 sq ft
Water Capacity	44 gallons	59 gallons	75 gallons	100 gallons
Fire Box Capacity	7.5 cu ft	10 cu ft	14 cu ft	22 cu ft
Coal Capacity	125 lbs.	200 lbs.	250 lbs.	400 lbs.
Door Opening	14" x 14"	14" x 14"	14" x 14"	16" x 16"
Flue Size	8"	8"	8"	8"
Weight	1,230 lbs	1,400 lbs	1,630 lbs	2,130 lbs.

Without oil backup	C40	C55	C70	C100
Coal	150,000	225,000	265,000	400,000
Heating Surface	20 sq ft	27 sq ft	33 sq ft	50 sq ft
Water Capacity	40 gallons	55 gallons	70 gallons	95 gallons
Fire Box Capacity	7.5 cu ft	10 cu ft	14 cu ft	22 cu ft
Coal Capacity	125 lbs.	200 lbs.	250 lbs.	400 lbs.
Door Opening	14" x 14"	14" x 14"	14" x 14"	16" x 16"
Flue Size	8"	8"	8"	8"
Weight	1,050 lbs	1,220 lbs	1,450 lbs	1,950 lbs.

Specifications subject to change without notice.

Optional Multi-Fuel Equipment

- Domestic hot water coil(s).
- Low water cutoff - safety shutdown if water level drops.
- Liquid fuel burning package.
- Automatic switchover package - automatically switch to fuel oil backup when fire goes out.

Auto Switch Over Optional
on CO models

Limited Warranty

Alternate Heating Systems boilers and furnaces are warranted against defects in materials and workmanship for the following periods:

- Boiler Vessel and Grate - 10 years
- All other components both manufactured by Alternate Heating Systems and purchased from vendors will vary in length of warranty from 30 days to 1 year

A copy of the complete warranty text, detailing coverage, limitations, warranty claim procedure and state law rights is available from Alternate Heating Systems.

Alternate Heating Systems manufactures alternative fuel burning heating equipment and sells (primarily direct) throughout the US, Canada, and internationally. Call us today to schedule a tour of our facilities, visit our showroom, and see a working demonstration of any boiler models.
